## Zirkonflex key features

Like Zirkon 15 (see separate product data sheet), and also:

- Triangular expansion panels that enable the walls of the tent to be raised
- Zippers that hide the triangular expansion panels when they are not being used
- Adjustable aluminium poles that keep the raised walls up
- The possibility of creating a 50 square metre covered area

Like our popular Zirkon 15 cp in all respects and also functions as a communal tent with optimal protection in all kinds of weather. When all walls are raised, the 50 square metre covered area offers protection against the sun or rain. With some of the walls raised, you get shelter from the wind but you still feel close to nature and you can see what is going on outside the tent. In strong winds, all walls are lowered and then the tent can withstand just about anything.

### Breathable – Cotpolmex C

Highly breathable and strong cotton/polyester fabric, creating a much better internal atmosphere than normally experienced in tents. The tightly woven fabric and high class impregnation gives high water repellency.

## Tentipi

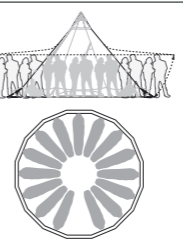

- has its roots in Swedish Lapland – the homeland of the Sami kåta
- stands for passion and expertise, especially when it comes to Nordic tipis
- has more than quarter of a century's experience as the world-leading producer of Nordic tipis
- has several patents and design rights for its original, ingenious design
- cares so deeply about its products that it only makes its Nordic tipis in its own fully-owned factories
- exposes every fifth tent to a full-scale rain test
- views every Nordic tipi as a unique product and gives it a personal ID to make it possible to track its components and specific design
- cares about previous customers by always striving to make new features also fit the older models of tents.

## Tentipi® Adventure

Single-pole Nordic tipis

<b>Zirkonflex</b>		
<b>Tent model</b>	<b>Zirkonflex 15 cp</b>
